

Product description and application	Connections and front side description					
<p>With the KNX IP Interface <b>UIMip</b> all KNX bus devices in the KNX bus system can be addressed. Thus, the <b>UIMip</b> makes network configurations less time-consuming.</p> <p><b>The UIMip works without external power supply!</b></p> <p>The <b>UIMip</b> connects both communication media Ethernet and KNX to feature for all devices connected to the KNX bus line:</p> <ul style="list-style-type: none"> <li> <b>Commissioning</b></li> <li> <b>Addressing</b></li> <li> <b>Setting parameters</b></li> <li> <b>Visualisation</b></li> <li> <b>Protocol</b></li> <li> <b>Diagnostic operations</b></li> </ul> <p>In addition, an error or a faulty communication on the bus is indicated by LEDs at the device.</p> <p>For more information on functionality, buttons function and device status please see the document "Technical and Application Description" available at <a href="http://www.apricum.com/uimip">www.apricum.com/uimip</a></p>		<p><b>LED</b></p> <p><b>1</b> <b>Bus state LAN</b> green: LAN line OK</p> <p><b>2</b> <b>Bus state KNX TP line</b> green: KNX line OK</p> <p><b>3</b> <b>Bus traffic LAN line</b> red blinking: Transmit error LAN</p> <p><b>4</b> <b>Bus traffic KNX TP line</b> green blinking: Telegram traffic KNX red blinking: Transmit error KNX</p> <p><b>5</b> <b>Programming</b> red: Program Mode red blinking: LAN line error</p> <table border="1" data-bbox="746 757 1185 853"> <tr> <td data-bbox="746 757 946 808"><b>A</b> <b>Ethernet connector</b></td> <td data-bbox="951 757 1185 808"><b>C</b> <b>Program button</b></td> </tr> <tr> <td data-bbox="746 815 946 853"><b>B</b> <b>Function button</b></td> <td data-bbox="951 815 1185 853"><b>D</b> <b>KNX connector</b></td> </tr> </table>	<b>A</b> <b>Ethernet connector</b>	<b>C</b> <b>Program button</b>	<b>B</b> <b>Function button</b>	<b>D</b> <b>KNX connector</b>
<b>A</b> <b>Ethernet connector</b>	<b>C</b> <b>Program button</b>					
<b>B</b> <b>Function button</b>	<b>D</b> <b>KNX connector</b>					

Technical specifications	
<p><b>Power input</b></p> <ul style="list-style-type: none"> <li>• Power supply: KNX line, 21...30 V DC (SELV)</li> <li>• Current consumption (max.): &lt; 40 mA</li> </ul> <p>The <b>UIMip</b> is <b>supplied by the KNX bus system</b> and does <b>not require any additional external power supply.</b></p> <p><b>Warning: Device may <u>not</u> be connected to 230V</b></p> <p><b>Housing</b></p> <ul style="list-style-type: none"> <li>• Dimensions (HxWxD): 90 x 36 x 71 mm</li> <li>• Mounting (IEC60715): 35 mm top-hat rail (TH35)</li> <li>• Width in space units: 2 modules at 18 mm</li> <li>• KNX bus connection: KNX connector (red/black)</li> <li>• Ethernet connection: Ethernet connector (RJ45)</li> <li>• Weight: 70 g</li> </ul>	<p><b>Environmental conditions</b></p> <ul style="list-style-type: none"> <li>• Working temperature: -5...45 °C</li> <li>• Storage temperature: -20...60 °C</li> <li>• Ambient humidity (non-condensing): 5...93 %</li> </ul> <p><b>Electrical safety</b></p> <ul style="list-style-type: none"> <li>• Pollution degree (IEC60664-1): 2</li> <li>• Protection type (IEC60529): IP20</li> <li>• Protection class (IEC61140): III</li> <li>• Overvoltage category (IEC60664-1): II</li> <li>• Approbation (ISO/IEC14543-3): KNX-certified</li> <li>• Compliance with EN50428, EN50581, EN61000-6, EN62479</li> </ul> <p><b>CE Marking</b></p> <p>According to low voltage and EMC guidelines (residential and commercial buildings)</p>

Mounting, commissioning and safety notes	Installation example and maintenance
<p> The <b>UIMip</b> interface device must be mounted and commissioned by an authorized person</p> <ul style="list-style-type: none"> <li>• For planning and construction of electric installations the appropriate specifications, guidelines and regulations in force of the respective country have to be complied</li> <li>• For mounting and dismounting only use an appropriate rail equipment according to IEC60715</li> <li>• Connect the KNX bus line as for common KNX bus connections with a KNX bus cable, to be stripped and plugged into a WAGO block</li> <li>• Take care of the electric insulations when connecting</li> <li>• Installation only in dry locations within distribution boards or enclosed housings with TH35 mounting rail</li> <li>• For commissioning use the Engineering Tool Software</li> <li>• The housing must not be opened</li> <li>• Accessibility of the device for operation and visual inspection must be provided</li> </ul>	<div style="text-align: center;">  </div> <ul style="list-style-type: none"> <li>• Protect the device from moisture, dirt and damage</li> <li>• The device needs no maintenance</li> <li>• If necessary, the device can be cleaned with a dry cloth</li> <li>• In the case of damage no repairs may be carried out by unauthorized personnel</li> </ul> <p style="text-align: center;">Further information available at <a href="http://www.apricum.com">www.apricum.com</a></p>
